

# USING THE EVOFIN CALCULATOR

The EvoFin calculator can be used to calculate the clients monthly repayment.

It's a user friendly tool that can be saved on desktops, iPads and mobile phones for easy access to calculate the clients monthly repayment even whilst discussing figures with the client in person.

## HOW TO USE THE CALCULATOR

- Enter the capital value, excluding vat:

100000.00

- Select the required escalation on the drop down bar.
- Click Calculate.

The calculator will then give options of 36, 48 and 60 months.

## ESCALATION MEANS:

- 0%** - The clients monthly repayment will remain the same value throughout term
- 10%** - The clients monthly repayment will start lower from year 1 and increase every year by 10%
- 15%** - The clients monthly repayment will start lower from year 1 and increase every year by 15%

Capital Value: R

100000

Escalation : 0% ▾

Calculate

### Monthly Payment Options:

36 months = R3,553.00

48 months = R2,888.00

60 months = R2,548.00
